Notice of change for Seven-Day Accounting

As previously communicated, the Federal Reserve Banks will be moving to a seven-day accounting cycle. As part of this effort, Subscribers will notice revised screens to allow for the monitoring of FedNow[SM1] Service activity through AMI and other changes. Example screens are included within this document.

As a reminder, an account holder may agree to act as a correspondent and allow its master account to be used to settle certain transactions and service fees for a respondent. Correspondents may use AMI to view their respondent's activity including FedNow[SM] Service transactions and expedite reconcilement and posting functions with the daily Statement of Account and data files.

Key Terms

Standard Business Day: Monday – Friday, excluding Federal Reserve Holidays.

Non-Standard Business Day[2]: Saturday – Sunday, including all Federal Reserve Holidays.

BusinessDay: Federal Reserve accounting cycle date, standard and non-standard business days.

Inquiry Time: Calendar date and time (ET).

Daily Cycle Transition Period: There is a transition period from approximately 7:00 PM - 8:45 PM ET when the Federal Reserve Bank systems are rolling to the next business day. Users can select the current business day or the next business day on the View Balance and View Account Balance Activity screens. Users may need to access FedNow[SM] Service reports for the most current FedNow[SM] Service information.

Provisional Balance: At the start of a new cycle date, if the final balance has not been calculated, a provisional balance will be provided.
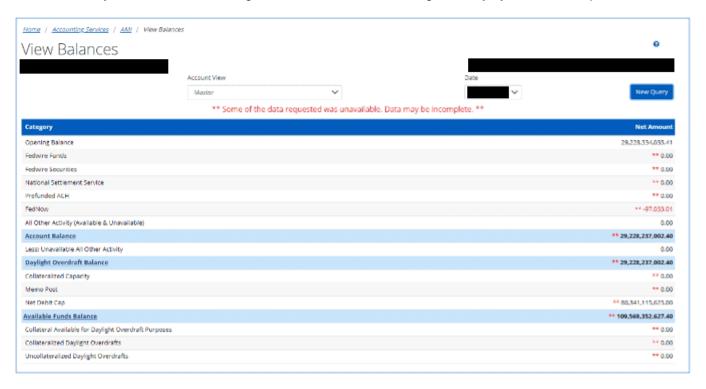

---

[1] FedNow Service activity will appear if you participate in the FedNow Service once it is available.
[2] AMI will be available by 2:00 PM ET on non-standard business days.

Messages

Users may receive the following messages when an account activity inquiry is initiated. FedNow^{SM} Service users may need to access FedNow^{SM} Service reports for the most current FedNow^{SM} Service information.
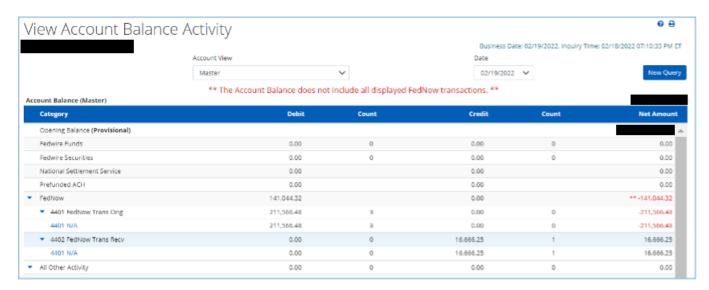

- Users may receive message ****Some of the data requested was unavailable. Data may be incomplete.**** when searching current business date during the daily cycle transition period.

View Balances

- The date and time header has changed and is formatted as follows:
  - Business Date: MM/DD/YYYY
  - Inquiry Time: MM/DD/YYYY
  - Hr:Min:Sec AM/PM ET
- Users can query the current business date or the next business date during the daily cycle transition period. The Date dropdown is formatted as MM/DD/YYYY.
- A new FedNow[SM] Service category has been added after Prefunded ACH.
- Users will see a provisional Opening Balance when searching next business date during the daily cycle transition period.
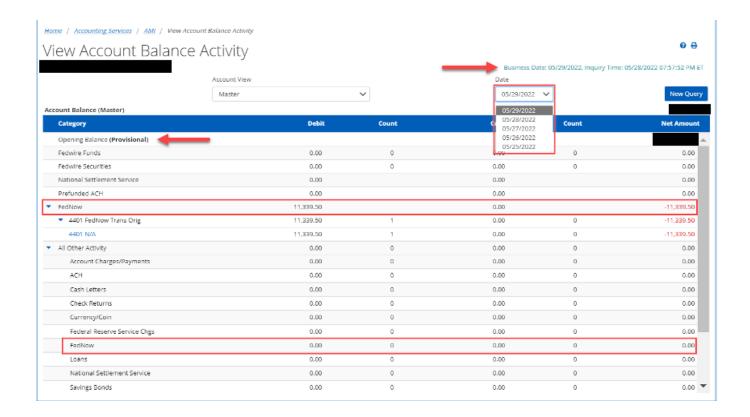

View Account Balance Activity

- The date and time header has changed and is formatted as follows:
   - Business Date: MM/DD/YYYY
   - Inquiry Time: MM/DD/YYYY
    - Hr:Min:Sec AM/PM ET
- The Date dropdown is formatted as MM/DD/YYYY. Users can query the current business date or four previous business dates as shown below. Users will have the same date selection during the daily cycle transition period plus the next business date.
- A new FedNow^{SM} Service category has been added after Prefunded ACH and in All Other Activity.
- Users will see a provisional Opening Balance when searching next business date during the daily cycle transition period.

Screenshot of the "View Account Balance Activity" page showing the Account Balance (Master) table with FedNow, Fedwire Funds, and other category rows, a Date dropdown expanded showing dates 05/29/2022 through 05/25/2022.

- Users can expand the FedNow^{SM} Service balance line to drill down to the Transaction Code and ABA level.
- Before the daily cycle transition, all tiers for FedNow^{SM} Service transactions and count of FedNow^{SM} Service transactions are displayed.

- Users can drill down to view the FedNow℠ Service supplemental detail when searching previous dates or searching current date during the daily cycle transition period.
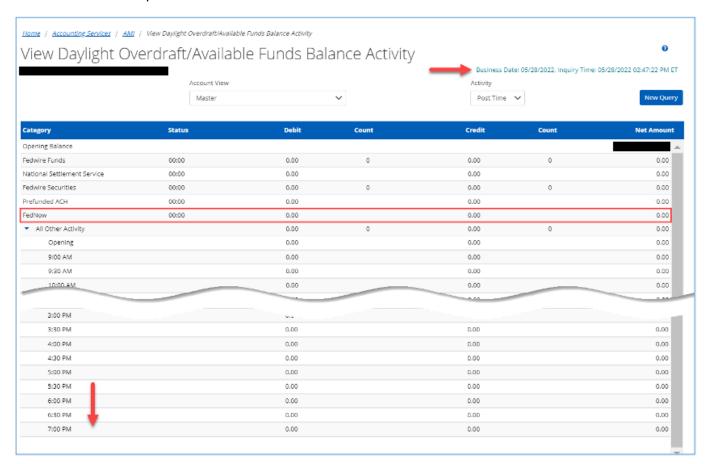

View Daylight Overdraft/Available Funds Balance Activity

- The date and time header has changed and is formatted as follows:
  - Business Date: MM/DD/YYYY
  - Inquiry Time: MM/DD/YYYY
  - Hr:Min:Sec AM/PM ET
- A new FedNow[SM] Service category has been added after Prefunded ACH in all Activity options (Summary, Service and Post Time).
- When viewing the Post Time Activity, the After Fedwire® category has been removed, any activity with a DLOD post time of 18:31 - 24:00 ET will show in the 7:00 PM line.

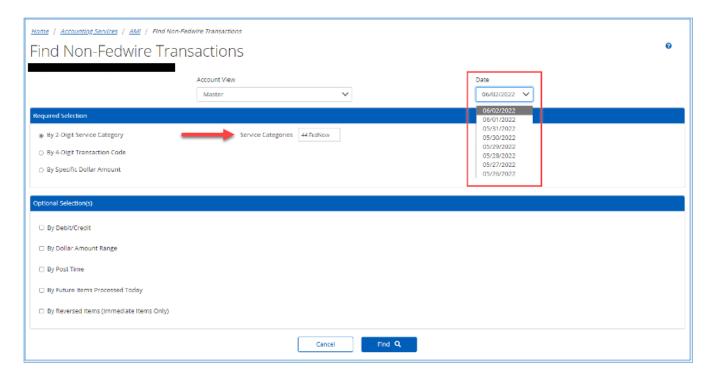

- When viewing the Service Activity, users can expand the FedNow[SM] Service balance line to drill down to the Transaction Code and ABA level. View and functionality are the same as View Account Balance Activity.

Find Non-Fedwire Transactions

- Users can search and view current date and seven previous business dates.
- A new Service Category and Transaction Codes have been added for the FedNow[SM] Service.
  - FedNow[SM] Service data for the current business day will be available for searches after the transactions are posted to the Federal Reserve Accounting application at approximately 7:00 PM ET.

- The date and time header for the results page has changed and is formatted as follows:
  - Business Date: MM/DD/YYYY
 - Inquiry Time: MM/DD/YYYY Hr:Min:Sec AM/PM ET

Find Fedwire Transactions
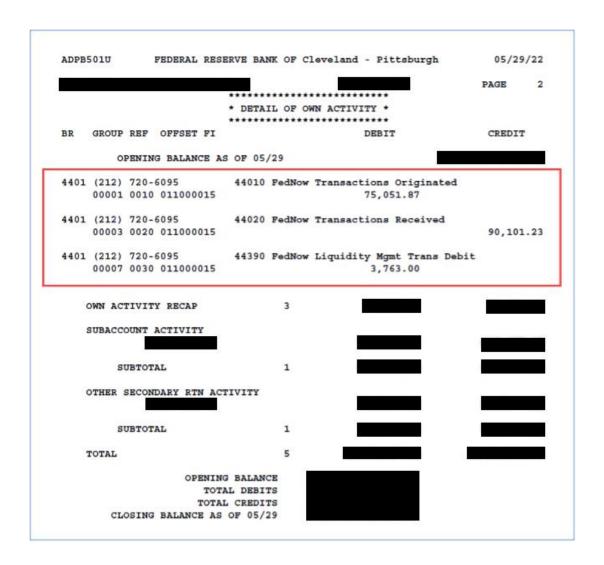

- There are no changes to Find Fedwire Transactions.

View Future Items Totals

- The date and time header has changed and is formatted as follows:
  - Inquiry Time: MM/DD/YYYY Hr:Min:Sec AM/PM ET
- Future items will continue to be processed and available on standard business dates only.

View Statement of Account

- The daily Statement of Account in PDF format is available seven days a week.
- Users can view the daily Statement of Account for up to 21 business days (increased from 14 to 21).
- As a reminder, if no transactions are posted to the institution's account, account holders will only see the opening and closing balances, and non-account holders will see a blank statement.
- On non-standard business days, users will see future items summary totals and total amounts maturing on future standard business days.
- FedNow[SM] Service participants and their correspondents will see new FedNow[SM] Service activity.

Download Statement of Account Files

- The Financial Institution Reconcilement Data (FIRD) and Statement of Account Spreadsheet File (SASF) are available seven days a week.
- Users can download the statement data files for up to 21 business days (increased from 14 to 21).
- As a reminder, if no transactions are posted to the institution's account, users will only see the header record information in their FIRD file, and no SASF file will be created.
- FedNow^{SM} Service participants and their correspondents will see new FedNow^{SM} Service activity.
- For detailed information about these changes, view the addendum.

Download Correspondent/Respondent Report

- Correspondent/Respondent settlement relationships for the FedNow[SM] Service will be included in the Correspondent/Respondent Report.
- When settlement updates are effective on a non-standard business day, a report will be available to download for that non-standard business day.

Download CMS Plus

- The date and time header has changed and is formatted as:
  - Report Run Time: MM/DD/YYYY Hr:Min:Sec AM/PM ET
- Reports will continue to be available on standard business days only.
- FedNow[SM] Service participants and their correspondents may see new FedNow[SM] Service activity for the 19:30 ET delivery.

View Collateral Balances

- The date and time header has changed and is formatted as:
  - Inquiry Time: MM/DD/YYYY Hr:Min:Sec AM/PM ET
- Users will receive message "Collateral balances are unavailable at this time." on non-standard business days.

View Detailed Current Day Collateral Activity

- The date and time header has changed and is formatted as:
  - Inquiry Time: MM/DD/YYYY Hr:Min:Sec AM/PM ET
- Users will receive message "Detailed Activity is unavailable at this time." On non-standard business days.

Download Collateral Reports

- The date and time header has been removed.
- Reports will continue to be available on standard business days only.

View Service Charge Information

- Users will see new Service Area Codes for the FedNow^SM Service.
- Users can view FedNow^SM Service billing transactions from summary totals to detailed charges.

Find/Download Service Charge Information

- Users can search FedNow^SM Service activity by Service Area Summary for All Activity, Product Code Summary Activity, Product Code Summary Activity by RTN and Detail Activity.

View and Download Statement of Service Charges

- FedNow^{SM} Service participants and their correspondents will see new FedNow^{SM} Service service area codes and product codes in their Monthly Statement of Service Charges and Service Charges Reconcilement Data (SCRD).

View Capital Stock Reports

- There are no changes to View Capital Stock Reports.

Daylight Overdraft Reports

- Daylight Overdraft Reports are available seven days a week. However, users will be able to view non-standard business day reports the next standard business day (e.g., Saturday and Sunday reports will be available to view Monday or Tuesday if Monday is a holiday).

Addendum for FIRD, IDAY and SASF Files

End-of-Day Financial Institution Reconcilement Data (FIRD) File and Intra-Day File (IDAY)

Presentation changes to the FIRD and IDAY include:
- All dates in the FIRD file can be any calendar date.
- IDAY file will continue to be available only on standard business days.
- FedNow[SM] Service participants and their correspondents may see new FedNow[SM] Service activity for the 19:30 ET IDAY File delivery.
- In preparation for the FedNow[SM] Service targeted in 2023, a new detail section will appear as described below for the FIRD file:

DETAIL FORMAT			
Field	**Length**	**Type**	**Value/Description**
The format depicted for the FedNow Service data fields below redefined the last 15 bytes of the Daylight Overdraft Posting times plus the 55-byte Filler above.			
APPL-ID	2	Alpha	Application ID (Optional) FN = FedNow
Type - Sub type	4	Alpha/Numeric	'0080' = Credit payment transfer '0040' = Return of payment transfer '0090' = Financial institution credit transfer
Message Identification Number	35	Alpha/Numeric	Unique message identification number for transfer. Calendar Date, followed by RTN and unique Reference ID. (YYYYMMDD999999999 <up to 18 characters Reference ID>)
Filler	7	Spaces	
Cycle Date	8	Date	Cycle date which can be any calendar date. Date (YYYYMMDD)
Posting Time	7	Time Stamp	Transaction Posting Time (HHMMSSS)
Create Time	7	Time Stamp	Start time FedNow Service used to start the timeout clock to determine amount of time payment takes to process (HHMMSSS)

Total Future Records changes to the FIRD and IDAY includes:
- Future Section revision include all calendar dates.
- Check and ACH transactions will continue to mature using standard business day.
- FedNow[SM] Service activity will not contain any future transactions.
- The future total line will not be created for that series of dates if no futures are available for that line.
- The total debit and credit amounts which follow each calendar date is the net debit and net credit total for that specific date.

Total Future Records

Debit Amount	15	Numeric	Debit Amount for each available calendar day in the sequence
Credit Amount	15	Numeric	Credit Amount for each available calendar day in the sequence
Filler	26	Spaces	

Statement of Account Spreadsheet File (SASF)

Presentation changes to the SASF include:
- The following column headers have changed: Funds/Security ID, IMAD Number and OMAD Posting Date. See the table below for the **new** and *(former)* column header.
- In preparation for the FedNow[SM] Service targeted in 2023, FedNow[SM] Service data will be provided in column headers: Apple ID, Type/Subtype, IMAD Number/ Message ID and OMAD Posting Date/ Cycle Date, as bolded in the table below.

---

[1] For each section the first available date refers to the first available calendar date in the sequence
   • Calendar date 1 for F1
   • Calendar date 6 for F2
   • Calendar date 11 for F3

As a reminder, the SASF will not be created for any business date where there is no transactional activity for the master account.

Column Header	Value/Description
Second Tier	RTN of second-tier relationships of the settlement financial institution (Master Account) or N/A
Branch Number	N/A – branch numbers not sent to the accounting system
Lowest Tier	RTN of the institution reporting through the second tier RTN or N/A
Tran Code Description	4-digit Transaction Code with Tran Code Description
Debit Amount	Transaction Amount - Debit
Credit Amount	Transaction Amount - Credit
Offset ABA	The RTN of the offset financial institution (If an offsetting financial institution is not applicable, the RTN of the Federal Reserve Bank processing the entry will be provided).
Reference Number	Ref -0000 (last 4 digits of the reference number) if available
Posting Time	Time the transaction posted to the FRS Accounting system
FRB Contact	FRB Contact Phone number associated with the TPU where the transaction posted
Available Date	The date the item is available 'YYMMDD'
Reversal Time	Time the original transaction was reversed or N/A
Original Cash Letter Amount	Original Cash letter amount for check or zero
One Day Amount	1 day future amount or zero
Two Day Amount	2-day future amount or zero
Three Day Amount	3-day future amount or zero
RSTM Control Item	RSTM and reference text or N/A
EF Immediate Amount	Future – Immediate or zero
EF 1-Day Amount	Future – 1 day or zero
EF 2-Day Amount	Future – 2 day or zero
EF 3-Day Amount	Future – 3 day or zero
Appl Id *(formerly: Funds/Security Appl Id)*	Application ID (FT-Funds, ST-Securities **FN- FedNow**)
